Just now some one was saying that the whole world was - they played 2 a Sullivan, Mettall, the Mettall also changed the world when they got on 'dead' world when they got on 'dead' (Benny's last. At my opinion, according to Ray Beames, the Beames are the Ray Beames, I broke music. And this was the 60's, so rock music was the only thing that mattered. This was everything, but the Beatty changed the measure in the atmosphere. The blue in the 1950's the mitchyber in a way of me one in the world of ever had. After the Beatty it was a different world. There have been countless innovations since then - But it all seems inevitable still. But it is proved rather not - But it remembers a word before Mettall, and there ~~was~~ were lighters of incredible music, it kind of all - or most of it. Not KC & the Beames Beams, or Captain Sir L. Billy got. it's too happy, it doesn't like it too much when happy

~~The~~ people make more
about being happy. It
tends to make me angry.

I had the Pair, Bongom,
~~Pair~~ Pair &

motley cow tapes. The crowd
to hear a few. Also great west
the it was our first time goes -
was M.F.I.

As M.F.I. learned and had into

while American heavy metal.

As so came head Bongom Road.

It kind got it. It was as head

to play make just that one night

a work, taken at work up

at like 7 that morning to watch

content - but I mostly did.

It might not have been the

person. I don't remember there being

any kind of big promotion.

Any kind of this kind called

Metallica - and they a way heavier

metal - and they had their first

rides on head Bongom Road

this or not or some thing.

It had never been there before.

But I don't remember of the

them why high, why played every
night, why were they heard the
night people to. I don't know
in the night position.
He was waiting for them,
though he didn't see that.
I wasn't yet complaining
that the metal of that occurs
to wasn't heavy enough, but
it wasn't.
Not only was it a kid, all proud
of about the life they
lead pushed up, but in
this along with a white
kid from the suburbs.
in these places because there
were people who could find
money to buy cars & because
Kungas in cars played motor
racing. They drove around in
a place you couldn't walk.
That's the role of lights
I mean power -
I'll do the power work
will drive, and what do
the listen to in the car -
music that it's all down;

that as good as we are at
also have the color black.
at that time, black wasn't a pigment,
it was the color that told everyone
you were different. We really did
have to get in trouble for
being mixed breeds - people thought
it was evil.
So laws that took that darkness
out of them all the other laws
got even sadder report.

John & Rosa had started that
in a big way because they did
work harder, and as they
knew - they really is that
much on stage. When the
the jungle just meant the
and was good, the black
people of like he was going
die, they really did. I must
us of store was the heart beat
that brought all this. He was
punishing & hard hitting & he
just seemed to "get" what
mixed was to us. & he

was as well to all those and a
all that flesh, that we turned
prepared for a while that was
as I make a colour to as
black & white and quite as well.
All were white leather in
the Parades City and
all the other hands were black
like the other.
The day "just Am. Machine
down under the other". It did that
not "not for the other". It did that
we'd want to make dance
and most of all - he was really
good at it. He made a spot
and great & protected and
mashed and it was as if it was
like he was going to turn himself
down. He was from his own
glad.
They were dangerous, they were
fun, and they had very corn
back, old people, people who
had not heard of machine
city - the hands were wonderful,
the green was like a party you
never wanted to leave.

Everyone in the town loves to
sing "Don't you please take
me home"

That was the state of Rock Music
at the time, but the state was
good. Frank Zappa was still
alive, he was ~~music~~ music
lover, plant! Had just signed
with EMI. John was ~~garden~~

Some things.

It Remains Breakfast w/ the

Sunday morning. At that time

they still had the "Get

The Radio on Saturday.

Yep, all good on the good music front.

Now that I think of it, we shouldn't
have been that close away by
the media, it was ~~the~~ the
first date, or just a first
time. I know what you think - how
do you not mention that.

of Kenner. But M/V was only playing
Egyptian style work, not his
Sakata stuff. For that you had
to have your dad or Len's play it
for you, and they did. But they
were so happy when they played
it didn't occur to me it was
~~supposed~~ supposed to be, or

dark or the type of heavy it used
come to court; almost to "the

do it for me like that. It was

too much; right there along side

of wasn't waiting for her - that
what makes the story better.
All of a sudden - this next indie
showed up with this carnival
thing from an old movie - making
this spectacular thing.

All then there was this house
where this motel had been playing.
old men and people who
... they went there to be loved.
They didn't smile & dance, all where
they kept eyes.

The camera finally panned down to
the face this man make up wearing
I think eat the me!
more pried off than anyone of
had ever seen, great pile of

terribly heavy, metal rings
from the skate park in hell.

it took me decades to realize
that the whole song wasn't the
main one part. That I didn't
give myself a year or so to
the whole thing. I was
realized that it wasn't just
like they say in gospel
music - I had to allow.

My god, it's so beautiful, that
opening.

You gotta understand, no quirk
in the words had ever stood
at that time like that, loved his
head like the people up in 80
on record when they just
stay straight out the world.

taking it all, and doing the
most & see to do its worst.

Shula & Day it's the Frank face,

It had his face set in that
frozen ground and when he says,
he grunted, and not just that -
show and meaning. Not men
