Measure

Motivation

Drive - Desire, Demonstrate, Do not Day

How - Day it, show it, reveal it, conceal it, conceal it, others need to it

Desire - style - desire the pattern, show habit, reveal style, true consequences

Back story

Consistent pattern + contradiction, moments of self recognition + denial

Responses - to external + internal expectations

Asymmetrical actions in rituals

Asymmetrical physical reactions in key scenes

Language + internal voice

7. Forget patterns + how to control posture

7. Many days + 1/2 hour of

7. Primary detail - the labels could not have been made, in the conversation called Private Motor calculator

it has the next steps - SKlearn + TF-IDF

7. Primary detail - data set for Biology types, not the ones.

the data set for

the data set for Por much giving

in the types of vents there are
 But the types are not in a file yet.
 I have more identifying than labeled data
 The groups are not made
 No element has yet
 Working for charging area
 - giving to write are done

7/16/24 made a page for the elements

made a page - all text w/a place holder for custom text

other	Cheng
comp	deven
comp	Cheng

"
 "
 "
 "

made all the groups for the first room
 added legal stuff
 7/16/25 made a heat map
 Made taken upon & taken dashboard
 7/12 - made charging area

to the analysis for feedback Plan:

Use triggers anywhere

Pay Pay runs local data anywhere

Pay Pay sends data ~~to~~ waiting to deepseek

LLM feedback is send

Pay Pay runs today:

identifying

Reactive DNA maps

Conceptual head map

Reactive physics solver

Concept states analysis

Visuals generated

Feedback & visuals displayed together in the UI

Added local data on.

" send data to LLM

" puts "feedback in the tray"

make visuals

7/14 - finished all the Blog post assignments do for now!
Here right to post week.
Built visuals
added chapter/setting and character

~~Ch. description~~

0

1. very common
2. seen solo by family
3. element not marked with grey out
4. click on element - go to work bench

Dark Bench - 10 elements

2. empty
3. empty
4. alone
5. add on subject
6. left feedback
7. empty area
8. part

Element Marking 1. you are your understanding

add to inventory
element kept on the bench - talk
appears in element inventory table

Inventory - 1. all marked elements

2. Bench det. here
3. can bench back to full work bench
4. use drop down & drag to drop
- to combine multiple elements

Design prompts that are conversational length content

Decision management - Decision management long interaction situations

Feedback - Validation part

Soft suggestions
